Long Bio

True Gold began life way back in 2005, when founding member Lee James put an advert out for musicians, which would form into a Spandau Ballet tribute band known as Highly Strung. The band split in 2010, only to reform after many requests to do so, under the new name of True Gold 'The Spandau Ballet Experience'.

The band is now sounding, and looking better than ever! Having performed in 100's of venues over the years, they have courted much praise from renowned artists.
